Making remedial driving courses easily accessible online

OUR CORE VALUES: PASTA - P = Passion, A = Appreciation, S = Simplicity, T = Trust, A = Accountability

Customer Overview

Making remedial driving courses easily accessible online

Online traffic schools have increasingly gained popularity as alternatives to traditional classroom-based traffic schools. But Internet is filled with bogus traffic schools that claim to be legitimate but actually are not. The client resolves this problem by compiling a list of best home study/online traffic schools that are CA DMV approved and offer highly acclaimed and accredited courses in California. There are other online services available too like driver license/identification card renewal, vehicle registration renewal, driver record request, vehicle transfer and release of liability. This application provides hassle-free online solutions for your driving-related queries and needs.

Problem Statement

Complex User Management

The website caters to different stakeholders hence it was required that each of them has secure, personalized access to the site such that each views only the information that they are authorized to access. Another challenge was to merge live

site students with their records in different tables on newly created network. A multi-site network had to be set up by migrating domains from three different accounts and domain mappings.

CIS Solution

Simplified Information Management Following

- A network was created on wordpress site to manage multiple sites from single end.
- A parent theme with various child themes were integrated with layout management feature in each theme.
- Basic functional code was written in parent theme template pages and inherited in child themes.
- A plugin was developed for managing all information of students.

Positive Outcome

Online Traffic Tutorials Simplified

For Students

Students can gather information about the homes study courses provided by DMV and pass necessary tests. Students can register themselves on various online traffic tutorial sites and at the time of registration they can make payment for the costs of books and shipping.

For Online Traffic School Admin

School admin can make changes in students information and can check student's activities and other records. School admin can generate school wise quarterly reports to track number of students that are registered, are attending school and have passed examinations.
