

## CUSTOMER OVERVIEW

# THOROUGHLY DETAILED CAD DRAWINGS FOR BUILDINGS RESTORATION PROJECT

The client is a leading construction consulting company providing comprehensive management services for construction projects. Client offers specialized expertise and rich experience in handling engineering and construction projects with strategies that focus on minimizing risk and delivering predictable, quality results.

## Project Features

- Detailed CAD drawings to help client carry out restoration process of buildings.
- Incorporated minute and accurate design details.
- Drafted CAD designs for each of the building.
- Quality checks to assess the designs created.
- Timely delivery of the designs with great attention to accuracy and details.

## Problem Statement

Client was working on a project that involved restoration of some buildings to their original state. To carry out this project, client required detailed CAD drawings for each of the buildings. The drawings had to be drafted as per the housing standards and regulations, and had to be delivered within a small time frame and in cost-effective manner. The drawings were required to cover all minute details for ensuring maximum accuracy.

## CIS Solution

From the start of the project, our focus was on fulfilling the client requirement of timely delivery without compromising the accuracy. We received information about the buildings from client such as dimensions, and other relevant structural details. Using these details, we drafted the CAD drawings for all the buildings. After the drawings were prepared, we conducted quality checks to make sure that they met client requirements.

## Challenges during Implementation

Each of the buildings had its own unique structural factors and design details. To make sure that each building design is completed with thorough detailing and accuracy in a short amount of time was challenging.

## Positive Outcome

The CAD drawings were delivered in the time frame provided by the client. The drawings developed were 100% accurate and of superior quality. The client was very happy and satisfied with the results.
