

CUSTOMER OVERVIEW

3D RENDERING SOLUTION FOR A RENOWNED INTERIOR DESIGNING FIRM

The client is a reputed interior designing company that provides quality interior design services for hotels, commercial complexes, and residential complexes. Client has carved out a niche for themselves with their unique, innovative, and ultra-modern interior designs.

Project Features

- 3D rendering of floor plans and walls for client's new interior design project.
- 3D rendered image that captures minute details in high definition.
- Delivery of 3D renderings in a limited time frame.
- Worked with a detailed understanding of the exact structural plans.
- Realistic overview that gives an accurate picture of what the project would look like after completion.

Problem Statement

Client was working on a project that involved creating designs for floor plans and walls for a new hotel. Client required 3D rendering services to achieve better visualization for their designs. The 3D renderings were required to accurately capture the finest of the details. The 3D model should serve as high quality representation of what the hotel building would look like after it is completed.

CIS Solution

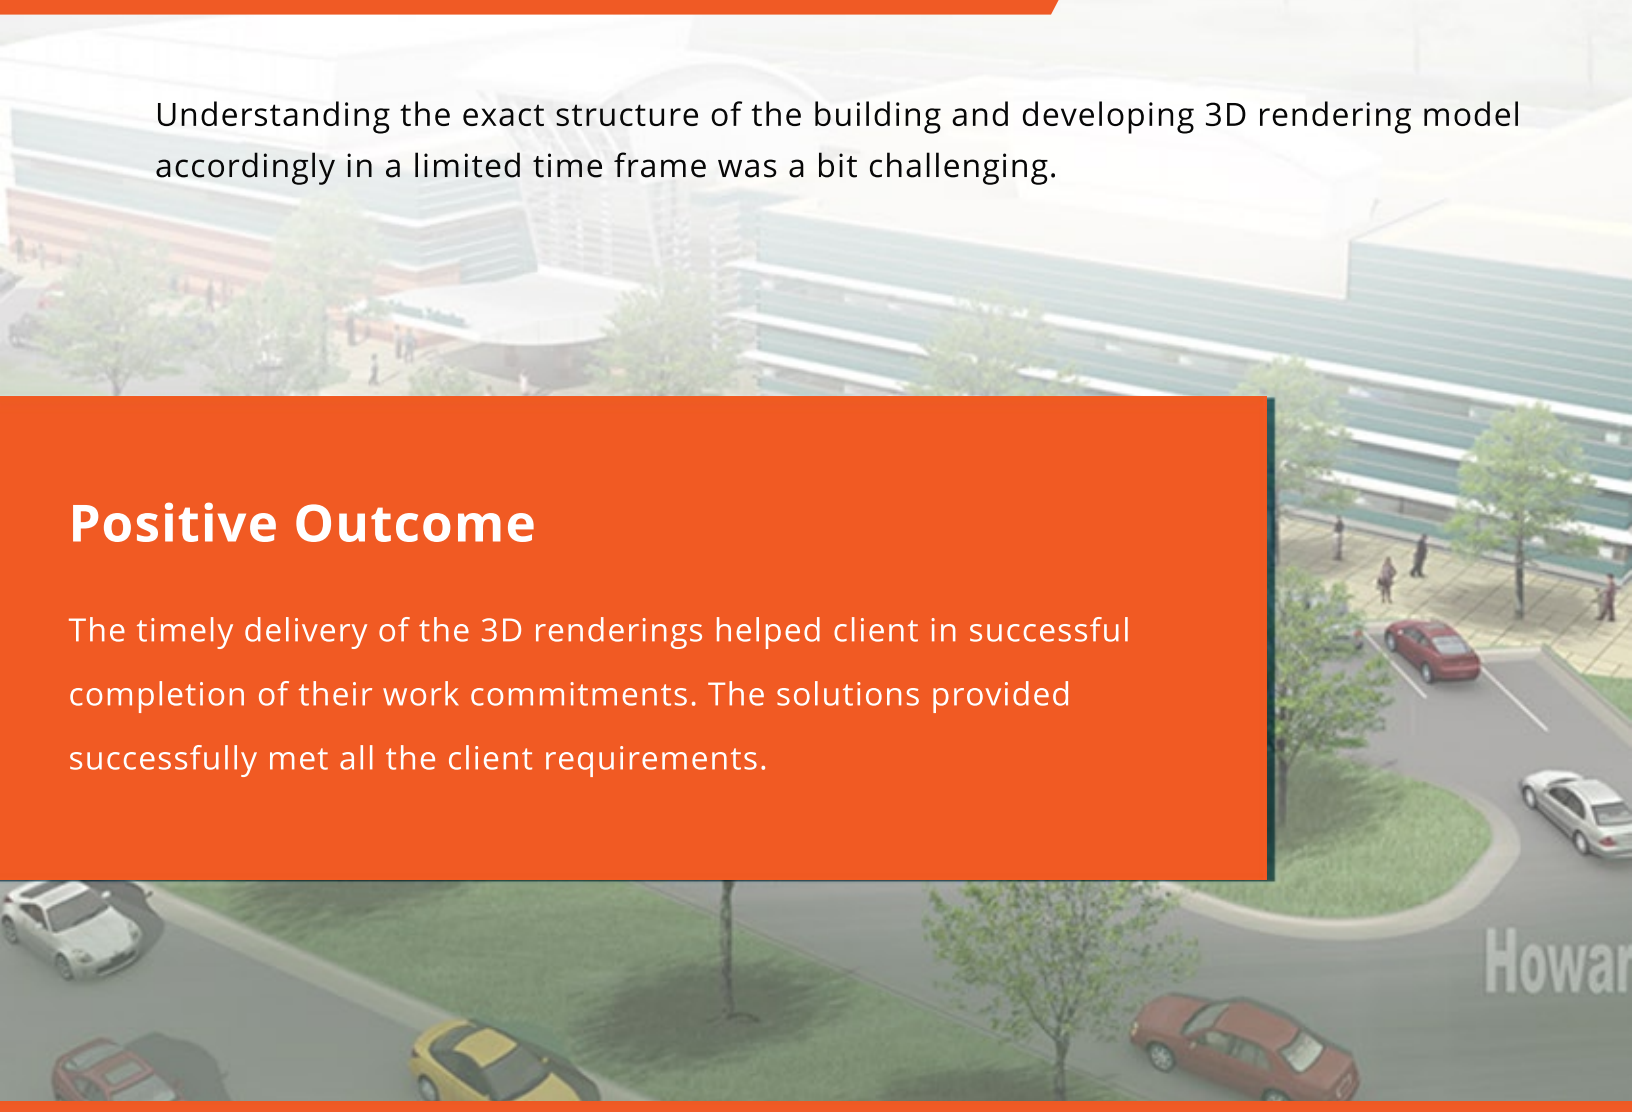

Our team of specialized resources closely collaborated with client to develop superior quality architectural drawings exactly according to the structural specifications. Our proficient designers and drafters utilized their expertise and experience to deliver extensively thorough 3D renderings within the time frame allocated.

Challenges during Implementation

Understanding the exact structure of the building and developing 3D rendering model accordingly in a limited time frame was a bit challenging.

Positive Outcome

The timely delivery of the 3D renderings helped client in successful completion of their work commitments. The solutions provided successfully met all the client requirements.
